

**DK “Imaging the Mind” Summer School**  
**Career Planning: From PhD to Postdoc**  
**5<sup>th</sup>-6<sup>th</sup> July 2017**

As most of the DK students are now half way through the PhD, questions and concerns regarding one’s own career following the PhD become more central. Thus, the main topic of this summer school is going to be ‘career planning’. Is a scientific career something I would like to pursue? Is there something like ‘career planning’ in science? Is it that I just depend on being lucky or is there anything I can do to make a successful career more likely? Together, PIs and students will discuss this and exchange perspectives. In addition, we will have a shorter session on the biological foundations of cognition.

Please note that we would kindly like to ask all PIs to be present during the first day. The workshop on the second day will be without PIs.

**SUMMER SCHOOL LOCATION**

University of Salzburg  
 Faculty of Natural Sciences  
 HS 423

**SCHEDULE**

<b>Wednesday, 5<sup>th</sup> July 2017</b>	
<b>HS 423</b>
