

## Call for proposals

### **“Women’s and Gender Studies” Courses for the academic year 2021/22**

The Chair in *Politics & Gender, Diversity & Equality*, the *Interdisciplinary Board of Gender Studies’ Experts (Interdisziplinärer Expert\*innen Rat/IER)*, and the Director of *gendup - Center for Gender Studies and the Promotion of Women* at the University of Salzburg invite qualified researchers to apply for a gender-related course.

Gender-related courses aim at introducing students of various disciplines to theories, methods, and empirical findings in the field of Gender Studies. Applicants are free to choose their foci from a wide range of topics according to their interests and specialization. We are especially interested in proposals that are *interdisciplinary* and *innovative* (e.g. in terms of theoretical approach or teaching methods). Intersectional approaches are very welcome.

The selected courses will be part of the interdisciplinary curriculum of "Gender Studies"\* and will also contribute to various disciplinary curricula.

- Researchers at all career stages are welcome to apply, but priority will be given to proposals submitted by *early-stage researchers*.
- Each applicant may submit max. two proposals in digital form to: [gendup@sbg.ac.at](mailto:gendup@sbg.ac.at)  
Deadline for submission of applications: **11. 01. 2021.**
- Decisions will be communicated to applicants: by the end of **April 2021.**
- For further information: 0662 8044 2529;  
see also: [www.uni-salzburg.at/gendup](http://www.uni-salzburg.at/gendup)

**Applications must include** the following documents:

- Completed application form (attached to this call)
- CV (max. 3 pages)
- Letter of motivation (1 Page)
- Transcripts (Master/PhD)

#### **Notabene:**

- Applicants are expected to cover **all travel and accommodation costs on their own.**

---

\* The curriculum is available at <https://www.uni-salzburg.at/index.php?id=22628> (20. 10. 2020).

## **Supplement:**

### **Important information for courses at the University of Salzburg**

#### **1. Number of Hours & Credits:**

The number of hours includes 30 units of 45 minutes each. If you are going to hold block units, you have to take into account that at least five block appointments are to be offered per semester. In addition, at least one office hour per week must be offered to students of the University of Salzburg. The office hour can be offered either in presence or online on any day of the week (from Monday to Friday).

**ECTS: European Credit Transfer and Accumulation System (ECTS):** this is a standard means for comparing academic credits. Example: 3 ECTS are awarded for a course which contains 75 h workload (e.g. 30 h attendance and class discussion, 45 h reading/writing/group work). For 15 semester weeks this means that about 3 hours per week must be invested additionally in self-study, home exercises, learning, preparation, etc. Decimal numbers should be avoided when you are assigning ECTS credits. ECTS credits are not a conversion of the semester hours. There is no direct relationship between contact hours (attendance hours in the seminar room or lecture hall) and ECTS credits.

#### **2. Types of Courses:**

##### **Lecture (Vorlesung, VO)**

Lectures give an overview of a subject or one of its sub-areas as well as its theoretical approaches and present different teaching opinions and methods. The contents are mainly conveyed in the lecture style. A lecture is not a continuous assessment course and has no attendance requirements.

##### **Lecture-practical Course (Vorlesung mit Übung, VU)**

Lecture-practical Courses combine the theoretical introduction to a sub-area with the teaching of practical skills. A lecture-practical course is not a continuous assessment course and has no attendance requirements.

##### **Seminar (Seminar, SE)**

Seminars are further scientific courses. They serve the acquisition of in-depth expertise as well as the discussion and reflection of scientific topics on the basis of active cooperation on the part of the students. A seminar is a continuous assessment course and has attendance requirements.

##### **Introductory Seminar (Proseminar, PS)**

Introductory Seminars are science-oriented courses and form the precursor to seminars. In practical as well as theoretical work, basic knowledge and skills of scientific work are imparted with active cooperation on the part of the students. A pro seminar is a continuous assessment course and has attendance requirements.

##### **Discussion Course (Konversatorium, KO)**

Discussion Courses are used for scientific discussion, reasoning and cooperation in the deepening of expertise or the special supervision of scientific work. A Discussion Course is a continuous assessment course and has attendance requirements.

##### **Practical Course (Übung, UE)**

Practical Courses are used to acquire, test and perfect practical skills and knowledge of the discipline or one of its sub-areas. A Practical Course is a continuous assessment course and has attendance requirements.

#### **3. Teaching format**

(Classroom-, Online- or Hybrid Teaching)

For online teaching, you can use videoconferencing via Webex and/or make use of our E-Learning system *Blackboard*.

For classroom teaching, the following devices are available in our classroom / lecture hall: computer, laptop, beamer, wireless network, pinboard, flipchart.
